

COUNTRY VISIONS COOPERATIVE SPRING TUB BOOKING PROGRAM

April 15 to May 15, 2018

**Book 1-9 tubs, Get \$10.00 off per tub.
Book 10+ tubs, Get \$20.00 off per tub.**

Mineral Tubs

Beef cattle minerals in a cooked molasses tub that is designed to correct the mineral deficiencies of the available forage in a highly palatable, weather-resistant form. This line of minerals is designed for cow/calf and seedstock operators that need a free-choice mineral supplement to assure that their cattle are getting the proper levels and ratios of all of the 14 essential minerals cattle need for health, growth and reproduction. Wind and Rain® Mineral Tubs provides these benefits in cooked molasses formulas and packaged in a non-returnable 225# plastic tub. This gives the producer a mineral that is the ultimate in weather resistance, palatability and consistent consumption, all in its own mineral feeder.

- Wind & Rain All Season 4 (no salt added)
- Wind & Rain All Season 4 with Altosid Fly Control (no salt added)

Protein Tubs

RangeLand® Protein Tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products in biodegradable fiber or non-returnable 225# plastic containers will enhance intake and utilization of available forages, while reducing labor for producers.

- RangeLand 30-13 (no salt added)

High Fat Protein Tubs

A premium, weather-resistant, protein block with vitamins, minerals, and a higher level of added fat that is designed to provide additional energy to balance nutrient deficiencies in forages such as native hay or poor-quality forages such as dormant grasses or crop residues in a convenient 200# plastic container.

- Accuration Hi-Fat Block (minimal salt added)

**Book your yearly
tub needs today!**

**Don't forget about
loose mineral!**

**No limits on how
many tubs you
can book!**

**Improve health,
growth, &
reproduction!**
